

Fairtrade tea and coffee tasting

In the Hall this morning there is an opportunity to taste different Fairtrade teas and coffees from Traidcraft and Ladybarn Coop and to say if you like them or not. Fairtrade means the growers in developing countries receive a fair price for their crops, as well as a Fairtrade premium which they can use to help their farms and communities.

“Move towards Fairtrade Certification” is part of our new Mission Action Plan. To achieve we need to serve Fairtrade tea and coffee after services and for all meetings for which the Church has responsibility, such as PCC meetings. At Mark's suggestion we are trying several different tea and coffee possibilities before deciding which one to use.
